

SB-Ninja250R/500R Installation

Before starting the installation please verify the operation of the brake light.

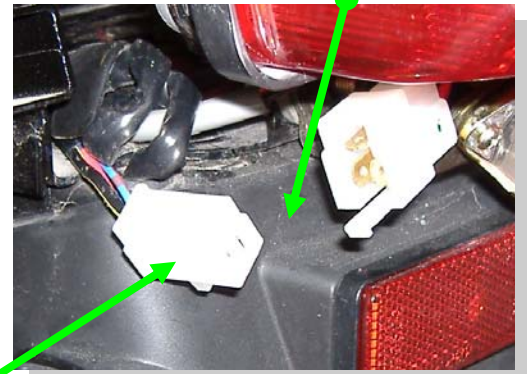

(SIDE view of brake lamp housing)

STEP 1:

Per the owner's manual, remove the rear side panel and seat. This will expose the 3-conductor OEM nylon connector.

Disconnect this connector.

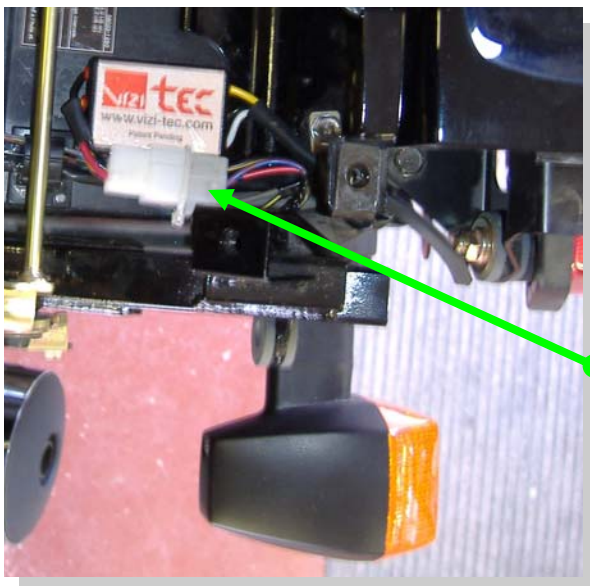

STEP 2:

Reroute the female wire of the harness as shown.

(TOP rear view of brake lamp housing)

STEP 3:

Plug the SB-Ninja250R/500R unit in series between the opened connector. Route the wires as shown and secure with supplied tie-wraps.

Test the functionality of the brakes and reinstall side panel and seat. Done!
