SB-916/996/748/998 Installation

Before beginning the installation please verify the operation of the brake lights.

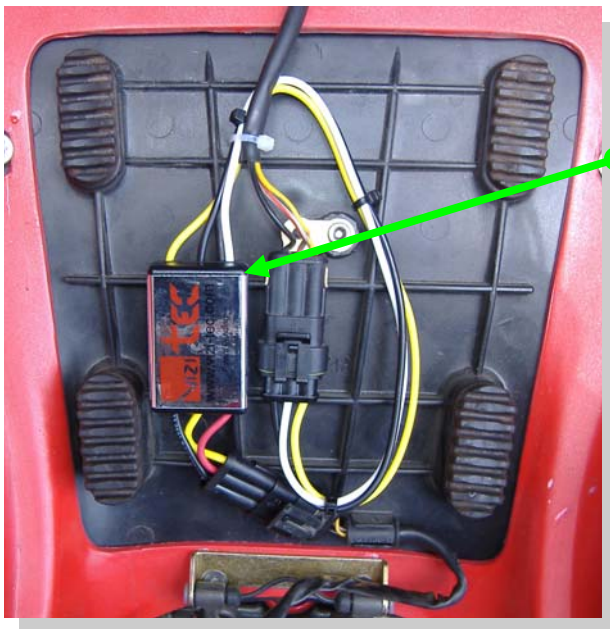

STEP 1:

Per the owner's manual, open the seat assembly to expose the 3-poles connector underneath.

STEP 2:

Disconnect the 3-poles connector

STEP 3:

Attach the SB-996 unit in series between the 3-poles connector from above. Secure the SB-916 unit with supplied tie-wraps. Test for functionality. Close/lock seat assembly.

Ride it, and tell all your friends about us!
