

SB-MTS1200 Installation

Before starting the installation please verify the operation of the brake lights.

STEP 1:

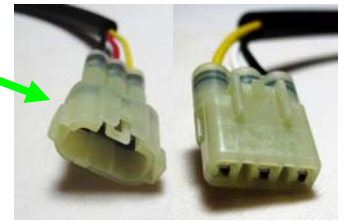

Per the owner's manual, release the seat from the frame and pull backwards to expose underseat compartment.

STEP 2:

Using the proper Allen Keys, open the rear end compartment (tail) to expose the 3-position connector of the taillight.

Open this this connector.

STEP 3:

Install the SB-MTS1200 unit in series with the above connector.

STEP 4:

Tuck the SB-MTS1200 as shown. Secure with tie-wraps. (Optional double sided tape can be used). Turn on the ignition and test brake lights for functionality.

Reinstall tail compartment/seat. Done!
