

SB-ST2/3/4 Installation

Before starting the installation please verify the operation of the turn signal indicators and brake lights.

(Pictures taken while standing on left side of motorcycle)

STEP 1:

Per the owner's manual, remove the rear seat compartment to expose the 3-pin tail light connector and...

Disconnect this connector by first sliding it towards rear of motorcycle to remove from frame. Then unplug.

STEP 2:

Plug the SB-ST2/3/4 unit in series between the existing connectors and slip the connector back onto its frame holder clip. Zip-tie to frame rail right above the connector.

STEP 3:

Keep this area clear for the seat.

Zip-tie the connector AND wire to frame rail for strain relief.
